

HU58[™]

Bacillus subtilis HU58 is a high potency single strain probiotic supplement. HU58™ can produce over 12 targeted antibiotics in the intestines, which makes it particularly effective in balancing intestinal microflora. It has been shown to support immune function, produce health-supportive metabolites and maintain healthy digestive and gut barrier function. According to studies, supplementing with HU58™ can support the gut's microbial balance and help maintain a healthy, balanced, and harmonious intestinal ecosystem.

Concentrated, Single-Strain Gut Microbial Support

HU58™ is a trademarked, high potency *Bacillus subtilis* strain. The valuable ability of HU58™ to help maintain a healthy balance of intestinal microflora sets it apart from other single-strain probiotics. This exceptional strain can produce metabolites that support balancing health-supportive gut organisms with undesirable ones. HU58™ can support and maintain microbial balance and diversity. It produces more than two dozen metabolites that can directly impact unwanted gut organisms and support healthy immune function. Among these health-supportive metabolites are nattokinase, B vitamins, short-chain fatty acids and vitamin K2.

Bacillus strains like HU58™ have clinically substantiated health-supportive benefits and proven use as probiotics. This bacterium is a normal gut spore-forming commensal organism with high tolerance and 99.99% survivability through the digestive tract. The rugged nature of HU58™ makes it the perfect sporebiotic to survive manufacturing, packaging, shipping, storage without refrigeration, and ultimately, digestion.

Key Benefits & Features

- Supports healthy gut microbial balance
- Maintains healthy and balanced immune function
- Supports healthy digestive transit time, gut motility and function
- Maintains healthy digestive and gut barrier function
- Supports the production of B vitamins, vitamin K2 and the fibrinolytic enzyme nattokinase
- Supports short-chain fatty acid (SCFA) production
- Supports healthy GALT development
- 99.99% digestive tract survivability
- 2-year shelf stable, no refrigeration required

SUPPLEMENT FACTS Serving Size 2 Capsules

Servings Per Container 30

Amount Per Serving % Daily Value Bacillus subtilis, HU58 50 mg 10 Billion CFU

† Daily values not established.

OTHER INGREDIENTS: Cellulose, vegetable capsule (cellulose and water).

SUGGESTED USE: Ages 5+ Start with 1 capsule with a meal and slowly increase using the following protocol:

Week 1 Take 1 capsule daily with a meal

Week 2+ Take 2 capsules daily with a meal

Children under 5 years of age, please consult with your healthcare practitioner.

HU58™ can be taken along with MegaSporeBiotic™ or with a different meal.

Bacillus subtilis HU58™ is a well-researched sporebiotic that does much of the word in the MegaSporeBiotic™ formula. When taken in conjunction with MegaSporeBiotic™, HU58™ can enhance immune function support. HU58™ may be used as an adjunct to MegaSporeBiotic™ to support patients with more severe issues. It is also recommended as support for individuals with a low resistome index on their stool testing profile.
