

MEGA GUARD™

MegaGuard™ is a novel digestive aid that combines three clinically studied botanicals to help overcome digestive discomforts, including gas, bloating, abdominal discomfort and disrupted gut transit time. Formulated with highly concentrated licorice polyphenols, artichoke extract and ginger, this digestive support hero comes to the rescue when certain foods may provoke digestive challenges. When combined with other Microbiome Labs products, MegaGuard™ offers valuable gastrointestinal support from the stomach through the colon.

This product was specifically designed to target upper GI conditions, including H pylori, gastroparesis, hypochlorhydria and dysfunctions to the migrating motor complex.

- **Protective support from licorice polyphenols**
- **Cleansing support from artichoke leaf extract**
- **Soothing support from ginger**

The combined power of these plant-based ingredients provides comprehensive support for healthy digestion, healthy bowel transit time, and supports gastric emptying. It is understood that impaired gut transit time is an underlying factor in issues where unwanted organisms occasionally overgrow in the small intestine. Since MegaGuard™ can support improved intestinal transit, it may be help address such issues.
